*and pay a valuable contribution to individualized cancer treatment*

*Dear Relation, Customer, Supplier, Friend or Acquaintance.*

*You receive this letter because you are, in one way or another, connected to me and to AAE. You might know us for our groundbreaking technology. We strongly believe this ground breaking technology contributes to a happier, healthier and simply more beautiful world.*

### **AAE Expedition Fit**

In line with this dream we would like to introduce AAE's 'Expedition Fit'. Expedition Fit is AAE's journey towards vitality and therefore provides us with a different way of contributing to a happier, healthier and more beautiful tomorrow. We make this journey, not only by working on our own vitality, but also by pushing our limits in order to contribute to crucial individualized cancer treatment. Which brings us to the next topic...

### **The 'Stelvio for Life Challenge'**

Sadly you, me and most of us have, in one way or another, been affected by the consequences of cancer. For someone who's directly affected by cancer the world suddenly changes into numerous hospital visits, oncologists and treatments.

By participating in the annual 'Stelvio for Life Challenge', we strive to raise money for fundamental research with regards to individualized cancer treatment. The Stelvio for Life Challenge takes us to the 'Passo dello Stelvio', one of Europe's highest mountain passes, located in Northern Italy. The Stelvio for Life participants commit to raise a minimum of 1 euro for every meter of elevation they climb to ascent this pass. The climb covers a distance of 21,1 km and has a total elevation gain of 1533 meters. This means that every participant will raise at least 1533 euros to contribute to individualized cancer treatment.

### **Online Auction**

Needless to say the yield of this auction will go towards the Stelvio for Life foundation. Please take a look at our auction items and don't be afraid to place a bid!
